

Professor Lei Chen

Chair Professor, Dean of the Information Hub & Director of the Big Data Institute

Data Science and Analytics, HKUST (Guangzhou) & Department of Computer Science and Engineering, HKUST
Hong Kong University of Science and Technology, Hong Kong

BIOGRAPHY

Lei Chen is a Chair Professor in Data Science and Analytics at HKUST (Guangzhou) and the Department of Computer Science and Engineering at HKUST, where he also serves as the Dean of the Information Hub and Director of the Big Data Institute. An elected Fellow of both the ACM and IEEE, Prof. Chen is a distinguished researcher whose expertise encompasses data-driven AI, spatiotemporal and probabilistic databases, crowdsourcing, and emerging technologies such as blockchain and the Metaverse. He earned his Ph.D. in Computer Science from the University of Waterloo and has received numerous top-tier honors, including the 2015 SIGMOD Test-of-Time Award, the VLDB 2022 Best Research Paper Award, and a VLDB 2014 Excellent Demonstration Award. His leadership in the academic community is extensive; he is the current President of the VLDB Endowment and Editor-in-Chief of IEEE Transactions on Knowledge and Data Engineering (TKDE), having previously served as Co-Editor-in-Chief of The VLDB Journal. Furthermore, his service to major international forums includes roles as General Co-Chair for VLDB 2024 and IJCAI China 2025, as well as Program Committee Co-Chair for VLDB 2019.

Professor Dongrui Wu

Professor & Deputy Director of the Ministry of Education Key
Laboratory for Image Processing and Intelligent Control

Huazhong University of Science and Technology, Wuhan, China

BIOGRAPHY

Dongrui Wu (IEEE Fellow) is Professor and Deputy Director of the Ministry of Education Key Laboratory for Image Processing and Intelligent Control at Huazhong University of Science and Technology, Wuhan, China. He received degrees from the University of Science and Technology of China (B.E., 2003), National University of Singapore (M.Eng., 2006), and the University of Southern California (Ph.D., 2009). His research spans brain-computer interfaces, machine learning, computational intelligence, and affective computing, with 200+ publications (15,000+ citations, h=65). His awards include IEEE, CAA, and MOE recognitions, and his team won China's national BCI competition (2021-2024). He is Editor-in-Chief of IEEE Transactions on Fuzzy Systems (TFS).

Professor Anton van den Hengel

Professor & Chief Scientist at the Australian Institute for Machine Learning (AIML) and Director of the Centre for Augmented Reasoning
University of Adelaide, Australia

BIOGRAPHY

Anton van den Hengel is Chief Scientist at the Australian Institute for Machine Learning (AIML), Director of the Centre for Augmented Reasoning, and Professor of Computer Science at the University of Adelaide. He founded AIML, Australia's largest machine learning research group, and has secured over \$80m in funding from organisations including Google, Facebook, Canon, and the ARC. Formerly Director of Applied Science at Amazon, he has authored 460+ publications (39,500+ citations, h-index 91), commercialised 8 patents, and co-founded 5 start-ups. His research spans vision-language AI, image modelling, and semantic reconstruction.

Distinguished Professor CT Lin

**Distinguished Professor, Co-Director of Australian AI Institute, and
Director of CIBCI Lab**

Faculty of Engineering and Information Technology
University of Technology Sydney, Australia

BIOGRAPHY

Chin-Teng Lin received the B.S. degree from the National Chiao-Tung University (NCTU), Taiwan in 1986, and the Master and Ph.D. degree in electrical engineering from Purdue University, West Lafayette, Indiana, U.S.A. in 1989 and 1992, respectively. He is currently a Distinguished Professor, Co-Director of Australian AI Institute, and Director of CIBCI Lab, Faculty of Engineering and Information Technology, University of Technology Sydney. Prof. Lin's research focuses on machine-intelligent systems and brain computer interface, including algorithm development and system design. He has published over 500 journal papers and over 410 conference papers (H-Index 101 based on Google Scholar) and is the co-author of Neural Fuzzy Systems (Prentice-Hall) and author of Neural Fuzzy Control Systems with Structure and Parameter Learning (World Scientific). He has been granted over 100 patents, including 18 US patents on AI and BCI. Dr. Lin served as Editor-in-Chief of IEEE Transactions on Fuzzy Systems from 2011 to 2016 and has served on the Board of Governors of IEEE Circuits and Systems Society, IEEE Systems, Man, and Cybernetics Society, and IEEE Computational Intelligence Society. He is the Chair of the 2022 and 2023 CIS Awards Committee. Dr. Lin is an IEEE Fellow and received the IEEE Fuzzy Pioneer Award in 2017.
